

## Application Guide for **mObridge Audio**.

Updated: 10-April-2008

The following applications are supported by mObridge Audio.  
 (Bluetooth support details to be announced 2nd Quarter 2008)

**Please inquire about: Aston Martin, Bentley, Land Rover, Rolls-Royce, and VOLVO**

Marque	Model	Model Year(s)	Head Unit	Supports MP3 text and folders?	Note
AUDI	A3	TBD	TBD	TBD	Est. MY09 support (when MOST/MMI applied)
	A4, S4	2008 -	MMI	Y	RS4/5 and Cabriolet models will be supported when they move to the new A4/A5 platform (sometime after 2008)
	A5, S5	2008 -	MMI	Y	
	A6	2006 -	MMI	Y	
	A6 Allroad	2008* -	MMI	Y	*Tentative based upon Allroad availability. U.S. availability may lag other markets.
	A8	2004 -	MMI	Y	
	Q7	2007 -	MMI	Y	
	RS4	Est 2009	MMI	Y	New RS4 will be supported, est. MY09 when MOST/MMI are applied.
	RS6	2008 -	MMI	Y	
	R8	2008 -	MMI	Y	
	S6	2007 -	MMI	Y	
TT	TBD	TBD	TBD	Est. MY09 support (when MOST/MMI applied)	

**AUDI Application Notes :**

**1) CD Changer Retention:** most cases with Audi MMI, 6 disc changer (CDC) can be retained. However, if vehicle (e.g., 2008 Audi Q7) is equipped with the single-disc box under the center armrest, the 6-CDC may need to be disabled for the time being until a suitable "13-disc" strategy can be investigated by mObridge engineering.

**2) iPod and Aux interface is done through the CD Changer interface.** Audi Music Interface for Media Devices may be supported at a future date so that full CD changer retention (up to 12 CDs) can be supported and take advantage of the full media interface (late 2008).

**3) CD Changer Enablement:** CD Changer does not require enablement in Audi MMI systems.

Marque	Model	Model Year(s)	Head Unit	Supports MP3 text and folders?	Note
BMW	7-series (E65) 7-series (E66)	2002 - 2006 -	ASK CCC	N* Y	* 7-series models from MM/05 production may be upgradeable to support MP3 text or possibly later radio retrofit to earlier car. Please inquire.
	6-series (E63, E64)	2004 -	ASK (non-Navi) CCC (with Navi)	Y	
	5-series (E60, E61)	2004 -			
	3-series sedan (E90)	2006 -	CCC (with Navi) Radio (non-Nav)	Y Y*	*Radio ("PL2 Professional") software release by mObridge end-Feb 2008.
	3-series coupe/cabrio (E91/92/93)	2007 -			
	1-series	2008 -			
	M6	2006 -	CCC (with Navi)	Y	
	M5	2006 -			
	M3	2008 -			
	X5	2007 -	ASK (non-Navi) CCC (with Navi)	Y Y	
X3	2009 (est.)	TBD	TBD		
<p><b><u>BMW Application Notes:</u></b></p> <p><b>1) CD Changer Retention:</b> The simplest solution is to disable ("take out of the loop") the BMW factory CD changer. However, a BMW CD Changer may remain in the system concurrent with mObridge, however it requires special setup and an electrical switch for the customer to switch between either/or. Please consult mObridge Sales or Support or our documentation section for further instruction.</p> <p><b>2) iPod and Aux interface is done through the CD Changer interface.</b></p> <p><b>3) CD Changer Enablement:</b> If the vehicle is not already equipped with CD changer, it will need to be "retrofit coded" for the CDC or the factory iPod retrofit kit (note: this is NOT the same as BMW factory iPod option 6FL starting 2007 cars).</p> <p><b>4) CD Changer Prewiring:</b> Those cars not equipped with CD Changer are often optioned with the CD changer prewiring. Some additional connector parts may be required. Please inspect the vehicle and inquire. In vehicles that are CDC-prewired, it is generally not necessary to use the mObridge-provided harness as the BMW connector is the same as mObridges (with the exception of needing a simple pin wire swap).</p>					
Lamborghini	Gallardo	2007 -	Audi MMI		Supported by nature of Audi MMI but needs further test and verification of timing of Audi MMI application in Gallardo.
<p><b><u>See Application notes for AUDI.</u></b></p>					

Marque	Model	Model Year(s)	Head Unit	Supports MP3 text and folders?	Note
Mercedes-Benz	C-Class	2008 - (TBD)	TBD	TBD	Further verification needed in new C-Class.
	A-Class	2004 -	Audio20 Audio50 COMAND	N N Y	This vehicle is not sold in U.S.A.
	B-Class	2004-			This vehicle is not sold in U.S.A.
	C-Class	2004 - 2007			
	E-Class	2003 -			
	CLK	2003 -			
	CLS	2004 -			
	SLK	2005 -			
	CL	2003* -			2003 may be compatible. Verify head unit type before proceeding.
	S-Class	2004 - 2006			
	SL	2005 -			
	G-Class	2004* - 2006			*Verify first that 2004 and 2005 car has the MOST system and <u>not</u> D2B. -Note that G-Wagen may require special harness considerations to mount mObridge in the rear of the vehicle, particularly if the vehicle has the SAT radio option.
	GL-Class	2006 -			
ML-Class	2006 -				
R-Class	2006 -				
<p><b><u>Mercedes-Benz Application Notes:</u></b></p> <p>1) <b>CD Changer Retention:</b> The simplest solution is to disable ("take out of the loop") the Mercedes-Benz CD changer. However, a Mercedes CD Changer CAN remain in the system concurrent with mObridge, however it requires special setup and an electrical switch for the customer to switch between either/or. Please consult mObridge Sales or Support or our documentation section for further instruction.</p> <p>2) <b>iPod and Aux interface is done through the CD Changer interface.</b></p> <p>3) <b>CD Changer Enablement:</b> Mercedes-Benz vehicles should not require enablement of the CD changer if they were not originally equipped.</p>					
Maybach	All	2003 -	COMAND		
<p><b><u>Maybach Application Notes: See Mercedes-Benz</u></b></p>					
MINI	Cooper, Cooper S	2006 -	Radio Navi	Y Y	Clubman will also be supported.

Marque	Model	Model Year(s)	Head Unit	Supports MP3 text and folders?	Note
	Cabriolet	TBD, est 2009			Cabrio with MOST expected MY09
<b><u>See Application notes for BMW.</u></b>					
<b>Porsche</b>	Boxster	2003 -	CDR23 CDR24 PCM	N N Y	
	Cayman	2006 -			
	Cayenne	2004 -			
	996/997 (911 all)	2003 -			
<p><b><u>Porsche Application Notes:</u></b></p> <p><b><u>1) CD Changer Retention:</u></b> The CD changer must be disabled (taken "out of the loop") of the system.</p> <p><b><u>2) iPod and Aux interface is done through the CD Changer interface.</u></b></p> <p><b><u>3) CD Changer Enablement:</u></b> If the vehicle is not already equipped with CD changer, vehicles with CDR23 will require activation (retrofit activation) of the CD changer. Vehicles with PCM do not require activation of CDC, except in rare cases where the vehicle has no other options such as NAV, SAT, Bose, etc, and thus the MOST bus may not be active and may require activation by the dealer and retrofit activation of a CD changer.</p>					
<b>SAAB</b>	9-3	2003 - 2006	ICM3	Y Y	ICM3 is color screen type system. ICM2, green screen type system is currently undergoing testing to determine compatibility with mObridge. Stay tuned for further details.
<p><b><u>SAAB Application Notes:</u></b></p> <p><b><u>1) iPod and Aux interface is done through the CD Changer interface.</u></b></p> <p><b>SAAB is a newly-supported application. PLEASE INQUIRE FOR FURTHER APPLICATION GUIDELINES REGARDING SAAB.</b></p>
