BMW – Wired or fibre optic?

Some BMW models may use a wired connection to connect a CD changer or a fibre optic connection. You will need to check the back of the radio to see which you have.

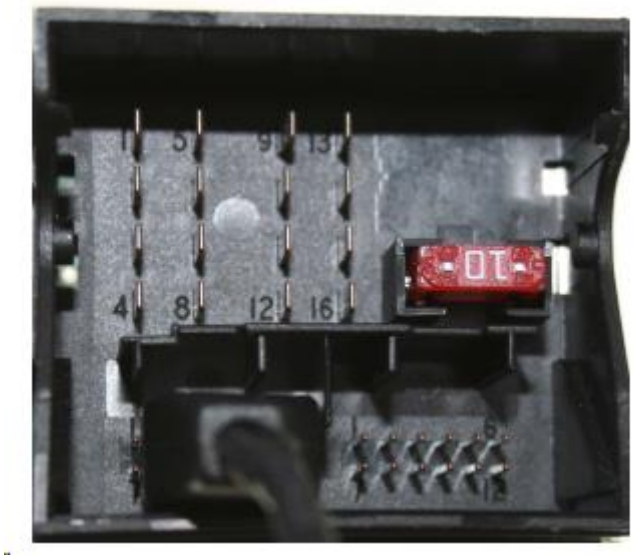

M.O.S.T. Fibre Optic connection

If you have fibre optics then you will see two transparent receptacles in the location shown below:

CAN bus wired connection

There should be nothing in the top right hand corner indicating you do not have fibre optics and therefore the bottom left 2x6 pin connector is used:
